# Quality in Concrete Paving Workshop

## Training Background

The National Concrete Pavement Technology Center (CP Tech Center), in cooperation with FHWA with funding through the National Concrete Consortium, is offering a one-day training program to state highway agencies. This training covers the benefits of quality assurance for concrete pavement construction and how it can be used to increase the longevity of concrete pavements. The training will emphasize that everyone, regardless of their role, affects the overall quality of pavement.

LUNCH WILL BE PROVIDED FOR ATTENDEES.

Limit 60

## Who Should Attend?

- Federal and state DOTs
- Contractors
- Quality control personnel
- Technicians
- City and county engineers
- Engineering consultants
- Materials suppliers

## What Will You Learn?

- Quality Assurance Concepts
  - Why I should I care?
  - Agency acceptance
  - Inspection
  - Elements of a Quality Control Plan
  - Variability of materials and testing
- Long Life Pavement
  - Factors affecting longevity
  - Actions controlling longevity
- Pre-Paving, Mix Production and Paving
  - Successful practices
  - Checklists
  - Key inspection items
- Implementing Quality Assurance
  - Tools to make Quality Assurance work
  - Benefits of a Quality Control Plan

## Program Materials

Training participants will be provided with a CD containing Quality Assurance resources.
